

Charger Test Pack Instructions

1. Unplug the charger
2. Place Charger Test Pack in Charger
3. Plug in the charger
4. Observe 3 LEDs in the Test Pack
5. Cycle Power to charger (unplug and re-plug)

*Note: Use this Charger Test Pack Procedure to confirm that a charger is OK. Step #5 is critical...the charger will not function normally after the test until the main power is cycled.

PASS

1. All 3 LEDs Green after 40 sec

FAIL

1. Any LEDs Red after 40 sec
