

DCN623 DeWalt 23G Pinner
CMCN623 Craftsman 23G Pinner

$\frac{3}{4}$ " Competitive Pin Handling

3/4" PIN PERFORMANCE

User Experience –

“DRY FIRE” or missed shot
Re-aligning stick in magazine works for a few shots
Could cause early blade wear

Cause –

Competitive (non SBD) brand pins are different length
Metabo
Grex
Freeman
Grip-Rite
Stopper in magazine allows pins to tilt if the wrong length
Only 3/4" Pins are affected

Solution –

Use these brand pins, especially in 3/4" length
DeWalt
Porter-Cable
Bostitch
Craftsman (available in project pack)

Brand	Nominal Length	Actual Length mm	Actual Length in	Model #
Dewalt	3/4"	18.81	0.741	PPN23075
Grex	3/4"	19.888	0.783	P6/20-2.5
Grex Stainless	3/4"	19.796	0.779	P6/20-5
Metabo	3/4"	17.551	0.691	23001S
Freeman	3/4"	17.714	0.697	P23-34
Grip-Rite	3/4"	17.824	0.702	GR34PIN
